

SOWING ANNUALS--SUGGESTIONS FOR MAKING ATTRACTIVE FLOWER BEDS--GETTING RESULTS FROM VEGETABLE GARDEN

GRO-BIG
Portable
Garden Trellises

MADE in four kinds, to fit every possible use where a portable support or trellis is needed for flowers, vegetables or vines.

One kind solves forever the staking-up problem of tomatoes, roses, golden glow, and the like. For beans and vines, there is another kind.

For sweet peas, or plants and vines of a heavier nature, we have both a portable wire and a bar trellis.

All the angle-iron uprights and the wire are heavily galvanized and will not rust. Can be easily and quickly put up or taken down.

Taken on the tomato trellis, shown at left, are adonis, and the like. For sweet peas, or plants and vines of a heavier nature, we have both a portable wire and a bar trellis.

Wire setting on the one at right is secured to angle-iron upright by simple quick working binder.

Absolutely nothing to get out of the way. Last a lifetime. Pack away in small space. Last a lifetime. Not expensive. Send for prices and circular.

Time Bean Trellis. Put the beans on the trellis. Last a lifetime. Pack away in small space. Last a lifetime. Not expensive. Send for prices and circular.

THE POWELL SPECIALTY CO.
38 Clinton Street, Newark, N. J.

Plant roses, shrubs and perennials.

If the ground is dry it should be watered thoroughly the day before sowing hardy annual seeds.
